

## **IJC Referral-Request Time**

### **Docket 101-R: Garrison Diversion**

- Letters of Reference issued on October 22, 1975 requesting that the IJC report by October 31, 1976.
- The IJC appointed a study board, which completed technical investigations in December 1976.
- IJC held public hearings and issued final report in August 1977.

### **Docket 107-R: Poplar River Water Quality**

- Letters of Reference issued on August 2, 1977 requesting that the IJC report by December 1, 1978.
- IJC provided technical reports in January 1978 and an interim report in February 1979 identifying potential pollution problems and the need for further monitoring.
- The IJC consulted with the Governments over the course of the study and advised that baseline data could be collected while construction of the project proceeded.
- The IJC held public hearings and issued a final report in January 1981.

### **Docket 113-R: Red River Flooding**

- Letters of Reference issued on June 12, 1997 requesting an interim report by December 31, 1997 and a full report as soon as practicable before the end of 1998.
- The IJC established a binational task force and issued an interim report in December 1997 identifying near-term needed to reduce the potential for damage should there be another flood in 1998.
- Because of U.S. funding shortfalls, the scope of the study was curtailed and the deadline for the full report was extended to December 2000.
- The IJC received the final report of its task force, held public hearings and issued a final report on November 28, 2000.

### **Docket 116-R: Ontario Hydro Redevelopment Project**

- Letters of Reference issued on December 21, 1998 requesting that the IJC review the proposed redevelopment of Ontario Hydro's water diversion facilities in the Niagara River and to report within four months.
- The IJC asked its International Niagara River Board of Control to assist with the review and held public hearings.
- The IJC issued its final report on April 30, 1999.

**Docket 117-R: Water Uses**

- Letters of Reference issued on February 10, 1999 requesting interim recommendation within six months and a final report, at latest, six months after the interim report.
- The IJC appointed a binational task force, held 20 public hearings and consulted with federal, state and provincial governments in both countries.
- The IJC issued an interim report on August 10, 1999 and a final report on February 22, 2000.

**Docket 118-R: Alburg-Swanton Bridge/Missisquoi Bay**

- Letters of Reference issued in May 2004 requesting completion by the end of the summer.
- The IJC appointed a binational Task Force, conducted a peer review of existing studies and held public hearings.
- Final report was issued in February 2005.
